Hiring Team
UBS Global Banking — Taipei
Re: 2027 Off-Cycle Internship — Global Banking — Taiwan (340768BR)

Dear Hiring Team,

I am writing to apply for the 2027 Off-Cycle Internship in Global Banking in Taipei. I am a Ph.D. candidate in Economics at HKUST. I am a native Mandarin speaker and professionally fluent in English, and I want to use that training on company analysis, financial models, and live transactions.

Most of my work is about how a business prices, competes, and manages inventory. With Kei Kawai and Kohei Kawaguchi, I studied Japanese book retail under resale price maintenance. I built title-by-market panels from point-of-sale records covering more than 1,000 stores, linked them to local demographics and to title information scraped from Amazon, and estimated demand and cost. The part I would carry into a deal team is the sequence: clean the records, get the industry facts straight, then build the model that a pricing or margin question actually needs.

A second project looks at apparel sellers on Taobao. I linked orders, prices, return-shipping insurance, and returns across six categories, and compared how different return terms change prices, purchase volume, and seller profit. I run that work in Python, R, and C++ on AWS and HPC, with tests so a number can be traced back to the code. I am comfortable picking up a new tool and checking the output before it goes into a write-up. In coursework I have also run merger simulations and entry and exit exercises.

My CV lists an expected graduation of June 2027. I would welcome the chance to discuss timing for the off-cycle program. I have attached my CV and transcript. Thank you for your consideration.

Sincerely,

Ke-Cheng Hsu (Clio)
